

ELEMENT-TL Gen2

Premium Long Pulsed Laser System

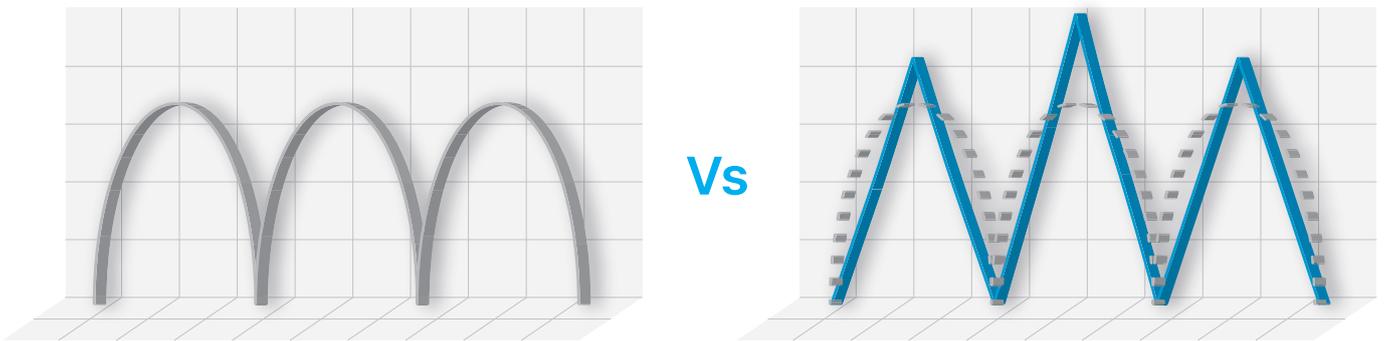

3X CLINICAL EFFICACY
WAVELENGTH SYNERGY
CLINICAL TONING

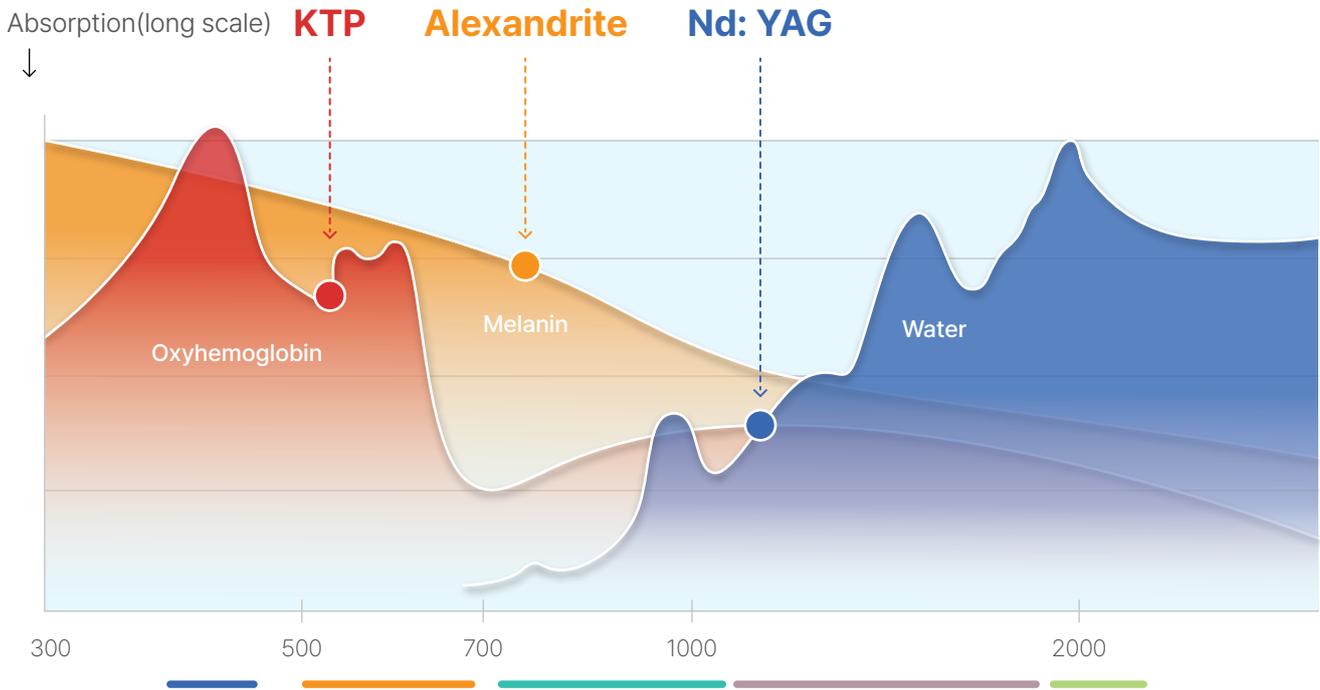

For international use only

Precision is the heart of clinical excellence. Our cutting-edge power supply technology enables Steady Pulse to deliver controlled, uniform energy to the skin's deepest layers. Experience a new level of efficacy in skin brightening, contour lifting, and targeted treatments for vascular conditions, acne, and onychomycosis.

Engineered for versatility, ELEMENT-TL combines proprietary pulse modulation with refined clinical protocols for every treatment need

**Nd:YAG1064nm**

Skin regenerator

of epidermal melanin

At its core is Halo Toning, a revolutionary approach that combines a triple-wavelength long pulse system with a fractional handpiece. This powerful synergy allows practitioners to address multiple skin concerns simultaneously, delivering profound and diverse clinical effects in record time.

Thermal-Toning

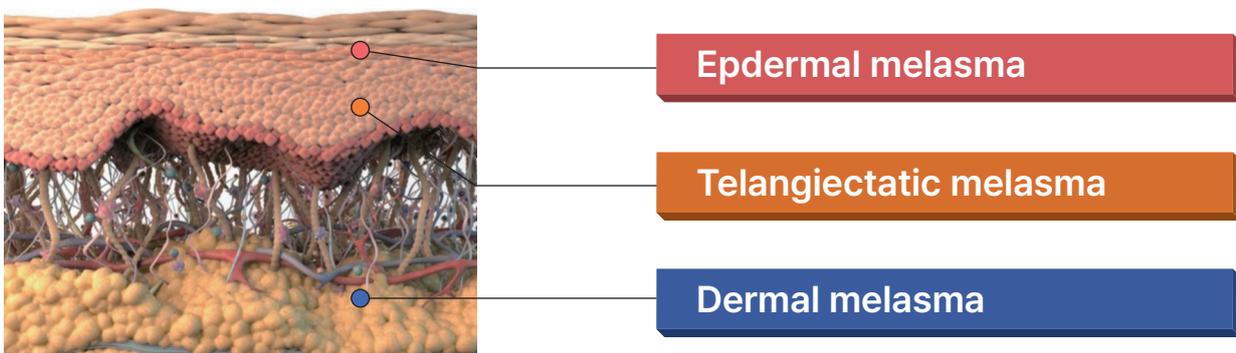

Elevate skin revitalization with the Advanced Genesis feature, engineered to maximize regeneration by stimulating collagen production and fibroblast synthesis.

1 Week ~ 8 Week

Multiple Toning

Multi-toning delivers a fundamental solution for all melasma types. By utilizing multi-wavelengths with high-stability energy, it simultaneously targets epidermal, dermal, and telangiectatic melasma for comprehensive and safe results

01

**Long pulsed
Nd:YAG-1064nm**

01

Rejuvenation

- Tightening
- Telangiectatic Melasma

02

Onychomycosis

03

Acne

04

Vascular lesions

- Telangiectasia
- Red & Blue Vein

05

Hair removal

02

**Long pulsed
Alexandrite-755nm**

01

Skin whitening

02

Pigmented lesions

- Melasma
- Lentigines
- Freckle
- Keratosis

03

Hair removal

03

**Long pulsed
KTP-532nm**

01

Vascular lesions

- Diffuse redness
- Telangiectasia
- Venous Lake

02

Pigmented lesions

Features

- ✓ **Three wavelength long pulse**
Nd:YAG 1064nm / Alexandrite 755nm / KTP 532nm
- ✓ **Multiple duration**
0.1ms - 350ms
- ✓ **Various spot size**
3mm - 24mm
- ✓ **Cryo-gas cooling system**
- ✓ **Dimensions 1000(H) 780(D) 400(W)**
